**BAROVIER & TOSO**  
EUROLUCE | HALL 06 | A23/B18

The Agave suspension lamp, designed by García Cumini for Barovier&Toso, pays homage to the beauty and symbolism of the plant from which it takes its name. With its distinctive shape and modular structure, Agave reinterprets the elegance and resilience of the Mediterranean plant, renowned for its rare and precious flowering.

**BROOT - DIALOGUES FROM WITHIN**  
BRERA | VIA BORGONUOVO 5

From April 7-13, the "Dialogues" Collection continues its journey to present the Broot project. From Saudi Arabia to Paris to Milan, Broot - Dialogues from Within aims to enhance traditional materials and their origins, with Portuguese natural stone as the central element. More than a project promoting a dialogue between different materials, it is the latest project led by Assimagra, Portuguese Association of the Mineral Resources Industry.

**CONTARDI**  
EUROLUCE | HALL 06 | A24  
& VIA MANZONI 38

Contardi announces its first collaboration with Controvento, the design studio and multidisciplinary collective co-founded by Gabriele Chiave: Alma.

The collection Alma combines two timeless classics: the fabric shade and the blown glass bubble in which it is immersed, creating a floating, contemporary effect. The lampshade integrates LEDs directly into the structure, completely concealing the light source.

**GIOPATO & COOMBES**  
VIA SAN MAURILIO 19

During Milan Design Week 2025, the design studio Giopato & Coombes unveils Scarabei, an unprecedented project that explores the metamorphosis of matter through light. The site-specific installation will be hosted at the Gallery in Via San Maurilio 19, from April 7 to 13. Inspired by the natural world and its organic forms, Scarabei is a profound investigation into the invisible golden rules that guide the spontaneous growth of living organisms.
